

AWNING FRONT BAR HEIGHT ADJUSTMENT

NOTE: The illustration features the variable drop range for the adjustable Easy Pitch™ mechanism. The awning's anchorage point of 10-ft (305cm) was chosen for easy mathematical comprehension but is not intended to serve as a mandatory height requirement. Various installations may require an anchorage height that is less than or greater than 10 ft and the Advaning design will accommodate that at the installer's discretion. Please contact a professional installer should any questions arise on the proper anchorage requirements for your particular installation.
